1. Input of a known MLFB

The screenshot shows the Siemens Spares on Web interface. At the top, there is a Siemens logo and a navigation bar with links for Spares on Web, Language, Contact, and Help. A banner image shows a technician in a hard hat. To the right, the text 'Spares on Web' is displayed with the subtitle 'Spares on Web is a tool for identifying spare parts' and a 'Login' link.

Below the banner, an attention message states: 'Attention: After Upgrade to Internet Explorer 10 this application will possibly not work any more. Then the Compatibility View must be activated. The manual for this is in chapter "End User" in <https://wiki.siemens.com/x0AaDAg>'.

The main search area has a 'Home' link and two tabs: 'SINGLE' and 'MULTI'. The 'SINGLE' tab is active. The search form includes an 'Order Number' field with the value '6ES7522-BL00-0AB0' (circled in red), a 'Serialnumber' field, an 'Options' checkbox, and a 'Search' button (indicated by a red arrow). A red box with the text 'Click on „Search“' points to the Search button.

On the right side, there is a 'Product Informations' section with a list of categories: Automation Systems, Converters, Motors and Drives, Sensor Systems, and Gearmotors.

At the bottom, the footer contains the text: '© Siemens AG 2014 | About Us | Privacy Policy | Term of Use | Digital ID'.

1.1 Display of „Standardview“

The screenshot displays the Siemens Spares on Web application. At the top, there is a Siemens logo and a navigation bar with links for "Spares on Web", "Language", "Contact", and "Help". Below this, an orange warning message states: "Attention: After Upgrade to Internet Explorer 10 this application will possibly not work any more. The application will be deactivated. The manual for this is in chapter 'End User' in <https://wiki.siemens.com/x/0AaDAq>".

The main content area shows the search results for the order number 6ES7522-1BL00-0AB0. The search form includes fields for "Order Nr.:" and "SerialNumber:", with a "Search" button and a "Return" button. The results are displayed in a table with columns for "Order number", "Quantity", "Description", and "URL Link". The table contains one row with the order number 6ES7522-1BL00-0AB0, a quantity of 1, and a description: "SIMATIC S7-1500, DIGITAL OUTPUT MODULE DQ 32 X 24VDC/0.5A; 32 CHANNELS IN GROUPS OF 8, 4 A PER GROUP; DIAGNOSIS; SUBSTITUTE VALUE".

A red box highlights the "Detailview" button at the bottom of the table, with a red arrow pointing to it. A red text box above the button says: "Click on „Detailview“ for additional information".

The table structure is as follows:

| Order number | Quantity | Description | URL Link |
|------------------------------------|----------|---|---|
| 6ES7522-1BL00-0AB0 | 1 | SIMATIC S7-1500, DIGITAL OUTPUT MODULE DQ 32 X 24VDC/0.5A; 32 CHANNELS IN GROUPS OF 8, 4 A PER GROUP; DIAGNOSIS; SUBSTITUTE VALUE |  |

At the bottom of the table, there are buttons for "Detailview", "add note", and "Excel download". The "Row count" is shown as -1.

Explanation of descriptions:

Info: Information for credit or repair

Phase Out: The product should no longer be included in your project plans. The product can however still be manufactured for the time being. Spare parts are still available for a period which we set.

Product Cancellation: The product is only available as a replacement for defective parts. Reference to replacement with obligation to return.

Product Discontinuation: The product can neither be delivered as a spare part nor can it be repaired. Consultation and service for these products will no longer be provided. Of course, even after total discontinuation, we will cooperate with you to find ways of getting your system or plant operating again.

Detailview add to note Excel download Row count: 2

The MLFB from column “Order number” can be transferred directly to the search field by one mouse click.

The search function will be started automatically.

The screenshot shows a web application interface with a search form at the top and a results table below. The search form has fields for 'Order Nr.' (containing '6ES7522-1BL00-0AB0') and 'Serialnumber:'. There are 'Search' and 'Return' buttons. The results table has columns: 'Order number', 'Quantity', 'Description', and 'URL Link'. The first row shows the order number '6ES7522-1BL00-0AB0' circled in red, with a quantity of '1' and a description: 'SIMATIC S7-1500, DIGITAL OUTPUT MODULE DQ 32 X 24VDC/0.5A; 32 CHANNELS IN GROUPS OF 8, 4 A PER GROUP; DIAGNOSIS; SUBSTITUTE VALUE'. A red arrow points from the circled order number to the search field. The interface also includes a 'spare part' tab, an 'Export' button, and a 'Row count' of 2.

| Order number | Quantity | Description | URL Link |
|--------------------|----------|---|----------|
| 6ES7522-1BL00-0AB0 | 1 | SIMATIC S7-1500, DIGITAL OUTPUT MODULE DQ 32 X 24VDC/0.5A; 32 CHANNELS IN GROUPS OF 8, 4 A PER GROUP; DIAGNOSIS; SUBSTITUTE VALUE | |

3. Input of a list with several MLFB

The screenshot shows the Siemens Spares on Web interface. At the top, there is a header with the Siemens logo and a navigation bar. Below the header, there is a warning message: "Attention: After Upgrade to Internet Explorer 10 this application will possibly not work any more. Then the Compatibility View must be activated. The manual for this is in chapter 'End User' in [https://wiki.siemens.com/x/0AaDAq](\"https://wiki.siemens.com/x/0AaDAq\")".

The main content area has a tabbed interface with "SINGLE" and "MULTI" tabs. The "MULTI" tab is selected and highlighted with a red circle. Below the tabs, there is a text input field with the placeholder text "Please input in form: Order number; Serialnumber; Options". A red arrow points from a red box labeled "Click on 'MULTI'" to the "MULTI" tab.

Below the input field, there is a "Search" button. Further down, there is a paragraph of text: "With MULTI, you can search for several order numbers at the same time. Enter the individual order numbers manually in the left field or use the system function 'copy and paste' to copy a list of order numbers from e.g. a spreadsheet. Please also observe that all order numbers of a MULTI query have to be assigned to the same product group (e.g. SIMATIC)."

On the right side, there is a "Product Informations" section with a list of categories: Automation Systems, Converters, Motors and Drives, Sensor Systems, and Gearmotors.

At the bottom, there is a footer with the text: "© Siemens AG 2014 | About Us | Privacy Policy | Term of Use | Digital ID".

3.1 Input of a list with several MLFB

This screenshot is similar to the previous one, but it shows the "MULTI" tab with a list of order numbers entered in the input field. The list is: 6ES71347SD510AB0, 6ES76771DD000BA0, and 6AV66450DB010AX0. The input field is highlighted with a red circle. A red arrow points from a red box labeled "Click on 'Search'" to the "Search" button.

The rest of the interface, including the warning message, product information, and footer, is identical to the previous screenshot.
