Rapid support around the clock – our SIMOGEAR service

Our services

Individually tailored service offers for:

- Delivery of spare parts/replacement motors/replacement geared motors for the customer to install themselves
- Repairs in one of our 55 repair centers worldwide
- Modernization of existing systems (e.g. conversion to 1LE1@MOTOX energy-saving motors)
- Customer-specific training courses (e.g. maintenance of geared motors)
- Advising customers on what spare parts packages to stock
- Projects for increasing plant availability (e.g. by means of detailed analysis of failures or on-site measurements)
- Processing of customer complaints

Contact persons

In addition to the usual Siemens Service contacts at www.siemens.com/automation/partner, we offer our German customers direct access to the Geared Motors service team in Tübingen. This team takes over all processing tasks for you – from the quotation and order processing all the way up to the coordination of international service cases.

The benefits for you

Our service is your partner for comprehensive support and innovative services for increasing your productivity. The original parts and manufacturing expertise we offer help you to achieve maximum machine availability and productivity. Our proven services therefore contribute to reducing the total cost of ownership (TCO) for you, as well as to creating sustainable values and solutions.

Delivery times

Providing the parts are in stock, we will deliver spare parts to you within 1-2 working days and replacement motors/geared motors within 3-5 working days (depending on the paint system).

Notes

Order processing on working days from 8 a.m. to 5 p.m. Please have the rating plate with important details

The screenshot displays the Siemens Industry Online Support website. The header includes the Siemens logo and navigation links for Intranet, Register, and Log in. The main navigation bar contains links for Industry Online Support International, Language, Contact, Help, Support Request, Site Explorer, and a search bar. The breadcrumb trail shows the path: Home > Product Support > Drive Technology > motors. The filter criteria section allows users to filter by Product (All Products or My Products), Product tree (motors (387)), Entry type (Manual (387)), Date, Manual type (All), and Other languages (All). The search results show 387 entries, filtered by 'Manual' and 'Main motors'. The list includes two entries: 'Low-Voltage Motors SIMOTICS DP' and 'Main motors SIMOTICS M-1PH8 1PH818., 1PH822., 1PH828.'. The right sidebar features a 'mySupport Cockpit' with links to Favorites, Personal messages, My requests, CAX downloads, My Products / Clipboard, and User online (79). The bottom of the sidebar has a link to 'All information on motors'.
